aequationes

Volume 22, 1981

aequationes mathematicae

Single copy: sFr. 38.-1-2 volumes of 3 numbers each year

Subscription per volume:

sFr. 100.-/US\$66.50

aequationes mathematicae is published by the University of Waterloo and Birkhäuser Verlag. Price per vo (three issues) is 100 Swiss francs/US\$66.50 including postage and costs of mailing, payable at the office of publisher, Birkhäuser Verlag in Basel, Switzerland, or through your bookseller.

The journal will publish papers in pure and applied mathematics in general but, in particular, papers on functional equations, combinatorial and numerical analysis. The languages in which papers will generall accepted are English, French, and German. Types of manuscripts that will be considered for publication include original research papers, problems a

Authors of papers should send the original and two additional copies. Since it is the policy of the journal publish in advance short communications of all results it accepts for publication, authors should include the original submissions a self-contained abstract of their paper of length 25-100 lines, which contains a statement of the results in the paper. Authors should also include an AMS classification for their paper.
